

FAA Safety Team, ROC FSDO, ROC ATC presents:

Why Smart Pilots Make Bad Decisions at the Rochester Safety Stand Down 2014!

Featured speaker David St. George, a FAA Designated Pilot Examiner and Safety Team Lead Representative is returning to the Rochester Safety Stand Down event by popular demand! The main focus of his presentation is solving the enigma of why smart people (pilots) continually make stupid (almost predictable) decisions that result in accidents. The three big risk areas consisting of fuel management, weather and maneuvering have been pretty much been engineered out of newer aircraft like the Cirrus. But even with precise fuel indications, pilots still run out of fuel! Did they decide to do this, or did they lower their guard and not decide at all....we need a systematic approach to managing risk and at this exclusive briefing you find out how! Counts for Knowledge 1 Basic WINGS credit! Click on the link below to register TODAY! Also, follow us on Facebook at <https://www.facebook.com/events/624097751003377/>

Directions: Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
